# CROWN LAND CLASSIFICATION COMMITTEE REPORT:

## Interdepartmental Operational Crown Land PLANS

## 1991

91-06848/

# PREFACE

This report is a partial reproduction of the Crown Land Classification Committee's "INTERDEPARTMENTAL OPERATIONAL CROWN LAND PLANS REPORT". It is intended as a reference document providing the reader with the latest printed [January, 1990] Operational Crown land plan maps which illustrate the land use coding approved by the CLCC. Excluded from the document are the detailed site plans prepared for various Crown land parcels.

Readers are cautioned in the use of this document and are requested to contact the Crown Land Classification Committee when using or quoting from this report to ensure all changes which may have occurred since this printing are noted.

For further information contact the Secretary, Crown Land Classification Committee, Box 38, 1495 St. James St., Winnipeg, Manitoba, R3H 0W9.

# INTRODUCTION

## BACKGROUND

Land use planning and classifying of Crown land in Agro-Manitoba is the responsibility of the Crown Land Classification Committee. This interdepartmental committee has representatives from Manitoba Agriculture, Rural Development, Natural Resources, Northern Affairs, Environment, Workplace Safety and Health, and Energy and Mines. The Crown Land Classification Committee reports to and receives its direction from the Provincial Land Use Committee of Cabinet.

The management and administration of Crown land is shared by Manitoba Natural Resources, Agriculture and Northern Affairs. Agricultural Crown Lands Branch issues agricultural leases and permits for those Crown lands which are designated by the Crown Land Classification Committee for agricultural use. The administrative responsibility for other Crown land uses is undertaken by the Lands Branch of Manitoba Natural Resources.

These operational Crown land plans are part of an overall provincial Crown land planning program, whereby operational plans implement provincial Crown land plans. Provincial plans which are approved by the Provincial Land Use Committee state provincial land use goals, intent, policy and describe the land use categories for the Crown lands in the particular plan area. The operational plans are approved by the Crown Land Classification Committee with the Provincial Land Use Committee the appeal authority.

Pending the preparation of a provincial plan, operational plans provide guidance in respect of allocation and use of Crown lands.

As of this printing, Provincial Crown Land Plans have been prepared for the following rural municipalities, local government districts and unorganized areas in Manitoba.

1. Western Interlake Planning District - R.M. of St. Laurent
   - R.M. of Coldwell
   - R.M. of Siglunes

2. Cypress Planning District - R.M. of North Cypress
   - R.M. of South Cypress

3. Brokenhead River Planning District - R.M. of Brokenhead

4. Neepawa and Area Planning District - R.M. of Langford
   - R.M. of Rosedale

## THE REPORT

The material contained, in this report, is part of the Crown Land Classification Committee's planning process which reviews, refines and updates on an ongoing basis a set of Crown land classification maps for Manitoba.

This report is prepared by the CROWN LAND CLASSIFICATION COMMITTEE as a direct and ongoing result of the field activities of the various BLOC PLANNING COMMITTEES.

## OPERATIONAL CLASSIFICATION SYSTEM

The Crown lands in this report are classified utilizing an open-ended comprehensive coding system which dictates on a quarter section basis not only the land use, but also the intensity of use, the amount of development (that is, the amount of clearing which can take place), and the length of time the Crown land can be committed via various legal instruments (such as leases, permits, contracts, etc.). These land use classifications are supplemented by land management guidelines which address site specific and physical factors as required, with the entire process within a stated planning framework and consistent with approved procedures.

The Operational Classification System is open-ended and provides for additional codes to be added upon approval by the Crown Land Classification Committee.

## OPERATIONAL PLAN APPROVAL

Operational Crown Land Plans are prepared, amended and approved by the Crown Land Classification Committee. Appeals to operational plans are directed to the Crown Land Classification Committee with the Provincial Land Use Committee of Cabinet the final authority.

# INTRODUCTION

## LAND USE ADMINISTRATION

The Operational Plans as presented dictate Crown land use. No other use is allowed; that is, all other potential uses are considered conditional and must be reviewed, cleared and approved prior to their allocation.

The use of Crown land is administered through instruments such as leases, permits, contracts, agreements, etc., which are issued by the Crown to individuals, corporations, etc., or declared by the Crown through Orders-in-Council.

Most of the Crown land outside of Order-in-Council areas (i.e., Crown land not included in Community Pastures, Provincial Parks, Provincial Forests, Ecological Reserves and Wildlife Management Areas, etc.) are administered under the authority of The Crown Lands Act. This Act is administered by Manitoba Natural Resources, Lands, with certain specified sections the responsibility of Manitoba Agriculture, Agricultural Crown Lands, and in co-operation with Manitoba Northern Affairs for Crown lands in the unorganized areas.

Proposed land uses and commitments must be in conformity with these Interdepartmental Operational Crown Land Plans.

## OPERATIONAL PLAN UPDATE

These OPERATIONAL CROWN LAND PLANS are reviewed and revised as required yearly. Upon receipt of Crown Land Classification Committee approval, these plans are used to administer and guide Crown land use for that year.

These plans have been updated on a yearly basis since their inception in 1976, however, as of the January, 1982, revision, all maps which were revised or redrafted are labelled indicating the date of the last revision. All maps not showing a revision date had their last review completed with the July, 1981, special up date.

## Order-in-Council Designations

| | |
|---|---|
| Community Pastures | CP |
| Provincial Parks | PP |
| Provincial Forests | PF |
| Wildlife Management Areas | WW |
| Ecological Reserves | ER |
| Special Forest Area | SF |

## Other

| | |
|---|---|
| Site plan filed | SP |
| Project Area | PJ |
| Urban Use | UU |
| Utility Sites | UT |
| Timber Removal Priority | X |
| Significant Shoreland | O |
| Wildrice | Q |

## Flooding

| | |
|---|---|
| Subject to general flooding | F1 |
| Subject to the 100 year flood. | F2 |
| Subject to the 10 year flood | F3 |
| Subject to the 5 year flood | F4 |

## SPECIAL BLOCK CODES (To be used only with approval of the C.L.C.C.)

- Agriculture leasable, 60 acres may be cleared per quarter providing 40 acres of native woody vegetation remain. Location of clearing by joint decision.

OR

- Up to 120 acres may be cleared per quarter, on 2 quarters providing 40 acres of native woody vegetation remain per quarter. Maximum clearing on remaining quarter in the block is 60 acres per quarter provided 40 acres of native woody vegetation remain per quarter and not to exceed the total intent of the 60 acres code per quarter. Once allowable clearing has been reached, the remaining undeveloped quarters shall be designated code 7a. Location of clearing by joint decision.

Z1

- Agriculture leasable, 80 acres may be cleared provided that 40 acres of native woody vegetation remain per quarter.

OR

- Up to 120 acres may be cleared per quarter section on 2 quarters providing 40 acres of native woody vegetation remain per quarter. Maximum clearing in remaining quarters in block is 80 acres per quarter providing 40 acres of native woody vegetation remain per quarter and not to exceed the total intent of the 80 acre code per quarter. Once allowable clearing has been reached, the remaining undeveloped quarters shall be designated code 7a.

# DEFINITIONS

AGRICULTURAL USE - identifies Crown lands for present use or future use as pasture, both improved and native, and as cropland, (including paddy production). Normal activities include grazing, haying and cultivation. For purposes of this classification these land uses are termed extensive agricultural use, for intensive uses, see Intensive Uses, Agriculture).

COMMUNITY PASTURE - Agricultural grazing land designated for community use for grazing purposes by Order-in-Council and operated by the Federal P.F.R.A. Program.

MANAGER APPROVAL REQUIRED - requires that before allocation and/or any advertising by Manitoba Agriculture, Agricultural Crown Lands, the appropriate manager (Forester, Land Manager, or Park Planner, Geologist, Biologist, etc.) must be contacted specifically regarding these lands. No action can be taken without his/her approval.

DEVELOPMENT - the carrying out of construction, erection or placing of any building or excavation or other operation on, over or under land or the making of any change in the use or intensity of use of any land or building or premises. This includes clearing, drainage, breaking, seeding, spraying, etc., (except fencing and those rights prescribed under a given lease - wells, dugouts, corrals, shelter, etc.).

DEVELOPMENT RESERVE - Crown land areas with potential for more intensive use. Limited access, low demand, need for extensive capital infrastructure (drainage), new technology or low service infrastructure require that use be restricted at this time.

ECOLOGICAL RESERVE - Crown land designated under An Act Respecting Crown Lands or the Ecological Reserves Act.

FISHERIES - means Crown land identified as being significant or critical fish habitat, i.e. stocked ponds, spawning grounds and nursery, rearing, food supply and migration areas on which fish depend, directly or indirectly, in order to carry out their life process. The area to be identified and coded fisheries includes not only that portion of the water body critical as fish habitat but also the immediate surrounding land (buffer) necessary to protect the habitat. The size of the area including buffer area to be coded fisheries shall depend on the physical nature of the site and the adjacent or allowable uses of the shoreland.

# DEFINITIONS

FLOOD - a temporary rise in flows or water levels of a water course or waterbody that results in inundation of areas not ordinarily covered by water.

a) 100 Year Flood - a flood which can be expected to occur, on the average, once in 100 years, or a flood which has a one percent chance of being equalled or exceeded in any year.
b) 10 Year Flood - a flood which can be expected to occur, on the average, once in 10 years, or a flood which has a 10 percent chance of being exceeded in any year.
c) 5 Year Flood - a flood which can be expected to occur, on the average, once in 5 years, or a flood which has a 20 percent chance of being equalled or exceeded in any year.

FOREST MANAGEMENT - areas of Crown forest land administered under sustained yield management and includes uncultivated land on which trees or shrubs are growing or standing.

JOINT DECISION _ decision of the Bloc Planning Committee is required.

INTENSIVE USES -

a) Agriculture - Crown land presently being used or identified for future use as; beekeeping, dugouts, feedlots, herb farms, piggeries, veterinarian clinics, haying cabins, gardens, farm residences and associated buildings, outside of unincorporated and incorporated cities, towns and villages.

b) Forestry - Crown land presently being used or identified for future use as; tree nurseries, experimental plantations, wood piling areas, sawmill sites, education and research, forestry sample plots, etc., outside of unincorporated and incorporated cities, towns and villages.

c) Recreation - Crown land presently being used or identified for future use as; campgrounds, tourist lodges, camps, shooting lodges, hunting cabins, marinas, playgrounds, cottages, Golf and Country Clubs, motorcycle trails, public beaches, outside of unincorporated and incorporated cities, towns and villages. These lands generally have a high suitability for intensive development and use.

d) Mineral - Crown lands presently being used or identified for future use as; aggregate stock pile areas, processing sites, drilling sites and oil wells and associated sites, petroleum storage tanks, etc., outside of unincorporated and incorporated cities, towns and villages.

# DEFINITIONS

e) Wildlife/Fisheries - Crown lands presently being used or identified for future use as; fish hatchery sites, fish stations, packing sheds, trapping cabins, mink ranching, education and research sites, etc., outside of unincorporated and incorporated cities, towns and villages.

f) Other - Crown lands presently being used or identified for future use as; garbage dumps, nuisance grounds, air strips, boat docks-houses-ramps-launches, water supplies, military reserves, penitentiaries, residential trailer parks, non-farm rural residential, town halls, community centers, athletic grounds, community clubs, churches, missions, graveyards, oil tank storage areas, refineries, business establishments, etc., outside of unincorporated and incorporated cities, towns and villages.

MINERAL EXTRACTION - Crown land presently being mined, to be mined in the near future or land with deposits which will eventually be mined.

MULTIPLE CODING - multiple coding is the technique used to assign more than one code to a parcel of Crown land. The codes which may be assigned need not be complementary.

See Explanations and Interpretation Section for implementation of multiple coding.

NATURAL LANDS - Crown land coded under this category include those areas identified as best kept from development. Generally, these areas are to remain as they occur in nature.

a) Erosion Prone/Fragile/Hazard Lands - Crown lands which are prone to instability, will erode through run-off or wind action including lands which have been identified as being important because they are fragile in nature and are land forms which require protection if they are to maintain their characteristics; e.g., slopes greater than 31%, sand dunes.

b) Bedrock - Crown lands which have extensive outcropping of bedrock, very shallow soils over bedrock, or a degree of stoniness which restricts use. Includes uneconomical surface gravel and sand deposits.

c) Marsh, Swamp, Bog, Fen - Poorly drained Crown land whose site characteristics preclude intensive use at the present time.

  i) Marsh - tract of soft, wetland usually low lying and partly or completely under water, has herbaceous vegetation rather than trees.

# DEFINITIONS

ii) Swamp - tract of low lying wooded area which is intermittently saturated; dampness due to poor drainage, wood is not of commercial value.

iii) Bog - a peat-covered or peat-filled area, generally with a high water table - peat is not of commercial value at this time.

iv) Fen - a peat-covered or peat-filled area, with a high water table, which is usually at the surface - peat is not of commercial value at this time.

NON-CONFORMING USE - is an existing use or legal commitment which was in place prior to and is contrary to the approved land use classification code. The existing non-conforming use is accepted for the short term (e.g., a lifetime lease) but is inappropriate for the long term. The approved land use classification code will be enforced at the earliest possible opportunity with a minimum of negative social impact. Thus, the land use code will be enforced upon expiration of existing commitments as defined below:

i) Where the parcel is under lease, the non-conforming use can continue until all lease rights expire. Upon surrender of the lease or cancellation of the lease, the non-conforming use will no longer be allowed.

ii) Where the parcel is under permit, the non-conforming use can continue until the person holding the permit no longer wishes to renew the permit. Upon the lapsing of the permit by the permittee, the non-conforming use will no longer be allowed.

In-family transfers and farm unit transfers will be permitted subject to eligibility requirements as determined by Manitoba Agriculture policy and legislation.

All approved operational land use classification codes in place as of January of each year are considered to be the long term intended land use for determining whether an existing use of legal commitment is non-conforming.

OUTDOOR RECREATION - recreation and open space areas where the natural setting or resource is the principle component. These areas are generally less suitable for intensive development. Crown lands coded for outdoor recreation may allow, activities such as unorganized bathing, unorganized camping, trail use, hiking.

PROJECT AREA - an area of Crown land where an approved project is established or is presently under consideration.

# DEFINITIONS

PROVINCIAL FOREST - Crown lands designated as such in the regulation under An Act Respecting the Administration and Conservation of Forests in the Province.

SIGNIFICANT SHORELAND - that area of Crown land which may include water, wet beach, dry beach and backshore which has been identified as being of public significance. It shall include such areas approved by the Provincial Land Use Committee as requiring protection as identified through the Crown land sale program and areas identified by the planning process.

i) Wet beach - the area of beach below the normal high water mark usually outward to the 1.5 meters depth contour at normal low water.

ii) Dry beach - the area of beach above the normal summer high water but normally subject to wash by high water or storm waves.

iii) Backshore - that area extending inland from the dry beach required to support or protect the resources, uses, activities or facilities.

See Explanations and Interpretation Section for application of this code.

SITE PLAN FILED - to use this code a site plan must be filed.

SPECIAL FOREST AREA - a Crown land area designated by Order-in-Council for the purpose of forest management, timber harvest, reforestation or research, and not presently designated as Provincial Forest.

TIMBER REMOVAL PRIORITY - this code indicates parcels with valuable (marketable) timber volumes which are to be harvested prior to implementation of the land use code. Timber removal must be in accordance with the long term allowable development. Code is to be applied to vacant Crown land coded for long term agricultural use. These lands shall not be advertised by Manitoba Agriculture, Agricultural Crown Lands prior to removal of the timber as per the development code. Once the timber has been removed the code 'X' will be removed from the parcel.

TIME -

a) Agricultural No Time Restriction - means there are no concerns respecting the administration of the parcel. Agricultural Crown Lands Branch will determine the land's ultimate disposition and tenure. Therefore, lands coded with 'No time restriction' may be leased for one year, 5 years, 20 years or lifetime, or could be permitted annually - for 5 years, etc. The administrative decision is the responsibility of the Manitoba Agriculture, Agricultural Crown Lands.

# DEFINITIONS

b) Agricultural Yearly Use Only - means the Bloc Planning Committee has some concerns and is restricting the administration of the parcel by Manitoba Agriculture, Agricultural Crown Lands, such that the administrative tenure is limited to a one year basis. Thus, Manitoba Agriculture, Agricultural Crown Lands is limited to annual permits, renewable permits and one year leases. There will be no conversion of permits to leases greater than one year.

c) Specific Time Requirements - the Bloc Planning Committee may determine that a specific time period is required, e.g., parcel available for hay only for 3 years or until 1990 etc.; the Bloc Planning Committee shall file a site plan stating all requirements deemed appropriate.

UNIQUE/RARE SITES - Crown land and/or water areas associated with (1) rare and endangered fauna and flora currently identified by the Government of Canada and relevant to Manitoba and by the Government of Manitoba as having a rare or endangered status. Species identification will be in accordance with Federal and Provincial legislation, (2) historic and archaeological sites, (3) unique significant resource sites - e.g., seed cone area. As a result of the nature of these sites no other use or development is allowed.

URBAN USE - Crown lands which are presently being used as town halls, community centers, athletic grounds, community clubs, churches, missions, graveyards, oil tank storage areas, refineries, residences, business establishments, etc., or lands which will be used for urban purposes in the future located within the boundaries of incorporated or unincorporated cities, towns and villages.

UTILITY SITES - Crown lands which are presently being used or identified for future uses such as roads, hydro transmission lines, pipelines (oil, gas, water), telephone lines, railways.

WATER MANAGEMENT - Crown lands which have been identified as being important for water management. The sites may be permanent or intermittent bodies of water. To be coded for water management the water/area must be of importance, that is, of some identifiable use or significance: i.e., ground water recharge area, water holding area, siltation area, or having particular water management problems.

# DEFINITIONS

WILDLIFE - Crown lands coded under this category shall be limited in general to those areas identified as best kept from development and long term commitment to secondary uses because of their importance to wildlife as habitat. Generally, these areas are to remain as they occur in nature, however, habitat improvement is not excluded. Wildlife includes non-game species such as birds, reptiles, etc., and areas of seasonal importance such as prime deer wintering areas.

WILDLIFE MANAGEMENT AREA - a Crown land area designated as such in the regulations under An Act Respecting the Administration and Conservation of Wildlife in the Province.

WILD RICE - Crown land and water areas which are presently used or will be used in the future for purposes of wild rice management and harvesting. It does not include paddy production.

# EXPLANATIONS & INTERPRETATIONS

The following items are approved interpretations in the use and application of operational Crown land use classifications.

## 1. INTERPRETATION OF DEVELOPMENT

### Example Situation

Land Use Code 4a: Hay and grazing, agricultural - no time restriction, providing 40 acres of native, woody vegetation remain, the amount of development allowed is 80 acres.

| IF Quarter is described as follows | THEN Acres of bush which still can be improved | AND Acres of bush retained |
|---|---|---|
| 1. 160 acres all native bush | 80 | 80 |
| 2. 140 acres bush; 20 acres native meadows | 80 | 60 |
| 3. 120 acres bush; 40 acres already cleared | 40 | 80 |
| 4. 100 acres bush; 60 acres native meadow | 60 | 40 |
| 5. 120 acres bush; 40 acres lake | 80 | 40 |
| 6. 100 acres bush; 40 acres lake | 60 | 40 |
| 7. 100 acres bush; 40 acres native meadow; 20 acres lake | 60 | 40 |

# EXPLANATIONS & INTERPRETATIONS

## 2. MULTIPLE CODING

Multiple coding is the technique used to assign more than one code to a parcel of Crown land. The codes which may be assigned need not be complementary or compatible.

The primary and secondary land uses are generally determined by the order in the code listing. Therefore the first code listed is considered the primary use followed by the secondary, tertiary, etc., land uses.

For purposes of multiple coding, simplification of the symbolization is required. For example:

| Old Code | New Multiple Code |
|---|---|
| 1. C1/A1 | C/A |

The numeral 1 has been dropped. However the meaning has not changed, i.e., wildlife priority/forestry secondary use: no agricultural use.

| Old Code | New Multiple Code |
|---|---|
| 2. C1/7a | C/7a |

The numeral 1 has been dropped. The code interpretation being primary use wildlife (C) secondary use hay and grazing no development (7a). The use of the number 1 in this case was confusing and inappropriate.

| Old Code | New Multiple Code |
|---|---|
| 3. C2/B2 | C/B2 |
| C4/A4 | C/A4 |

The first numeral is eliminated. The meaning being wildlife priority (C), outdoor recreation secondary use; hay only no development, yearly use only tertiary use. Similarly for C/A4.

4. Other examples are:

| | | | |
|---|---|---|---|
| E1/8a | E/8a | A1/7a | A/7a |
| A1/C6 | A/C6 | C1/B1/7a | C/B/7a |
| N1/4a | N/4a | 7a/J4 | 7a/J |

Note wherever appropriate, the land use should be stated first i.e., codes A, B, C, D, E, while land characteristics are indicated after the land use i.e., codes J, K, M, for example.

J1/C1 C/J

## 3. SIGNIFICANT SHORELANDS

Significant shorelands shall be identified by the code "O" followed by the reason for its significance, e.g., fisheries, outdoor recreation, etc.

a) Where the shoreland occurs on a quarter section where there is no agricultural, forest harvesting, recreational development, etc., occurring or being considered, the area shall be coded for example:

O/B - for significant shorelands from the outdoor recreation perspective
O/C - for significant shorelands from the wildlife perspective
O/T - for significant shorelands from the fisheries perspective

b) Where the shoreland is presently under agricultural use, the quarter shall be coded: O/SP. A site plan will then be prepared detailing the exact area of shoreland to be protected, for what purpose and the allowable use on the remainder of the quarter.

# EXPLANATIONS & INTERPRETATIONS

## 4. PROVINCIAL LAND USE CODES

| Provincial Land Use Description | Provincial Land Use Code | Operational Land Use Codes | Operational Land Use Description | |
|---|---|---|---|---|
| Community Pastures | CP | CP | Community Pastures | |
| Provincial Parks | PP | PP | Provincial Park | |
| Provincial Forests | PF | PF | Provincial Forests | |
| Wildlife Management Areas | WW | WW | Wildlife Management Areas | |
| Ecological Reserves | ER | ER | Ecological Reserves | |
| Special Forest Areas | SF | SF | Special Forest Areas | |
| Agriculture | A | 1-4a, 2-4b, 2-4c, 1-4d | Hay & Grazing | |
| | | 1-4g, 2-4h, 2-4i, 1-4j | Hay Only | No development restriction |
| | | 1-4n, 2-4p, 2-4q, 1-4r | Grazing, Hay, Cultivation | 120-80A development |
| | | 1-4u, 2-4v, 2-4w, 1-4x | Cultivation Only | |
| | | Z2 | Special Block Code Z2 | |
| | | 5-8a, 5-8b, 5-8c, 5-8d | Hay & Grazing | |
| | | 5-8g, 5-8h, 5-8i, 5-8j | Hay only | |
| | | 5-8n, 5-8p, 5-8q, 5-8r | Grazing, Hay Cultivation | 60-0A dev., go back field |
| | | 5-8u, 5-8v, 5-8w, 5-8x | Cultivation Only | |
| | | Z1 | Special Code Z1 | |
| Forestry | F | A1 | Forest Management Area - no agricultural use | |
| Forestry Dominant/ Agriculture Minor | FA | A2-A4, A6-A8 | Forest Management Area - no development, hay only | |
| Outdoor Recreation | R | B1 | Outdoor Recreation - no agricultural use | |
| Outdoor Recreation Dominant/ Agriculture Minor | RA | B2-B9 | Outdoor Recreation, no development hay, hay or grazing, grazing, cultivation | |
| Wildlife | W | C1 | Wildlife - no agricultural use | |
| Wildlife Dominant/ Agriculture Minor | WA | C2-C9 | Wildlife - no development, hay, hay or grazing, grazing, cultivation | |
| Mineral Extraction | M | D1 | Mineral Extraction - no agricultural use | |
| Mineral Extraction Dominant/ Agriculture Minor | MA | D2-D9 | Mineral Extraction - no development hay, hay or grazing, grazing, cultivation | |
| Water Manangement | B | E1 | Water Retention - no agricultural use | |
| Water Management Dominant/ Agriculture Minor | BA | E2-9 | Water Retention, hay, hay or grazing, grazing, cultivation | |

# EXPLANATIONS & INTERPRETATIONS

| Provincial Land Use Description | Provincial Land Use Code | Operational Land Use Codes | Operational Land Use Description |
|---|---|---|---|
| Fisheries | C | T1 | Fisheries - no agricultural use |
| Fisheries Dominant/ Agriculture Minor | CA | T2-T9 | Fisheries, no development, hay, hay or grazing, grazing cultivation |
| Significant Shorelands | G | O | Significant Shorelands |
| Wildrice | H | Q | Wildrice |
| Unique - Rare Sites | Q | G1 | Unique - Rare Site - no agricultural use |
| Natural Lands | N | J1, K1, M1 | Erosion Prone/Fragile/Hazard lands, Bedrock, Marsh-Swamp-Bog-Fen; no agricultural use. |
| Natural Lands Dominant/ Agriculture Minor | NA | J2-9, K2-9, M2-9 | Erosion Prone/Fragile/Hazard lands, Bedrock, Marsh-Swamp-Bog-Fen; no development, hay, hay or grazing, grazing, cultivation |

From Highway #20 West
Develop fields in such a manner that:
- approx. 300 ft. of bush will be left adjacent to streams
- continuous blocks of bush larger than 40 ac. will be left (may be on more than one quarter)
- light soil will not drift
- snow will not block roads

[ ] - Area of High Quality Limestone.
